- More than 4,10,000 Knowledge Professionals have authorized participating companies to view their profile.

Trend in NSR Registrations

Facilities available for Subscriber Companies

Use your NSR member company login to **search and view** the unique biometric based profiles of your employees and non – employees who have given permission to your organization to view their profile. You can view the photograph, personal details, educational details, career information and background check results of registered professionals.

Submit your employees / non employees profile for **background check**. You can select the fields to be verified and allocate the details to an NSR empanelled background checker (EBC) of your choice. Background check results will be displayed on the profile of the candidate and the details once verified cannot be changed by the candidate.

Confirm the joining details of your employees (**Link**) like employee code, date of joining, and joining designation on NSR. Such linked information cannot be changed by the employee and is equivalent to employment verification. You can also confirm / update the relieving details (**D-Link**) of your employees like Relieving Designation, Relieving date and Relieving comment. Create a **self-sustaining system** for you and your industry by following this practice.

Update existing background check results against the NSR profile of your employees if they have already been verified in the past. The verified details along with the verification results can be viewed by all present and prospective employers of the candidate.
