

Hi,

We are pleased to inform that with your and industry's continued support NSR has achieved many important milestones. NSR today is positioned as a center-stage security measure and is classified as a **Security Best Practice**. At the recently concluded NASSCOM DSCI Information Security Summit at Hyderabad this focus and interest was profound among Indian and foreign Information Security experts and Management representatives. We propose to share the updates on the progress made and more steps to be taken by all of us by starting this series of updates and look forward to your participation:

- **3,80,000 colleagues** in the Indian IT/ITeS industry have registered their details on NSR web-site.
- **70 leading IT/ ITeS** companies are participating in this initiative (list available on NSR site). These companies represent almost **60 % of the industry employee** strength.
- **Persistent Computers, HSBC Software, KPIT Global Business Solutions** and **Verizon** have joined NSR recently. We welcome them to the system.
- NSR registration has become an important business process which is part of joining process in many large companies.
- **New NSR posters** have been printed and we have also sent some of these for your use. If you need more please let us know.
- An **attended mail-back facility** is available at [nsr@nsdl.co.in](mailto:nsr@nsdl.co.in) . HR Teams or any employees / candidates having any query / problem about any NSR process can write to this mail and seek response.
- **14 background checking companies** are empanelled to provide NSR verification service to companies and candidates.

This update and further editions will facilitate creating NSR understanding and sharing updates about progress and new initiatives happening on NSR system. We believe that this could be one of the ways to bring NSR and its members closer and will help us uniformly update you about NSR and its various features. Please feel free to write us for any doubts/problems/clarifications.

Best regards,

Vijay & NSR Team
