

# NSR

Credible Data, Credible People

March 2009

## NSR for You

As you are aware, NSR has been set-up on behalf of NASSCOM and its member companies. NSR endeavors to be best in class security best practice where each person (you) has a Credible Industry Profile hosted on a Central System. Every person has a Secure Identity and a Unique Profile based on Biometrics. The system helps in developing a fact-sheet of credible and objective information about each person with background check reports, on a central system and enables quick referencing for every new prospective employee. This profile becomes the industry reference about all persons. NSR is developing as an important repository of credible information about existing and prospective employees. The system provides these facilities while ensuring security and privacy of information.

**We are pleased to inform that with your and industry’s continued support NSR has crossed following important milestones**

- 4,00,000 colleagues in the Indian IT / ITeS industry have registered their details on NSR web-site.
- 73 leading IT / ITeS companies are participating in NSR (list available on NSR site). These companies represent almost 60 % of the industry employee strength.
- NSR registration has become an important part of joining process in many large companies. like Wipro, IBM, IBM Daksh, Infosys, Infosys BPO, TCS, Cognizant, Genpact, MindTree, Unisys, EXL and more.
- 14 background checking companies are empanelled to provide NSR verification service to companies and professionals.

NSR is your life-time permanent profile, keep it updated and ready for reference by industry, do it now!!! We encourage you to log-in to your NSR profile review your details and update the changes if any.
